

General Product Guide

Lawrence Industries is a technically driven distributor of speciality chemicals serving a diverse range of markets across the UK & Ireland. In partnership with many of the world's largest and most innovative chemical manufacturers, we have shared many years of outstanding growth by consistently adding value to our customers.

Please find below details of our main product ranges available through Lawrence Industries. Should you require further information or samples of the products listed, please contact us.

Product Range List

3M Protective Materials		Stain repellent fluorocarbon additives for water and solvent based systems.
Aerosil®		Fumed silica for rheology modification, flow and improved physical properties.
Aerodisp®		Dispersions of popular fumed silicon dioxide, and fumed metal oxides to improve handling and dosing.
Aeroxide®		Fumed metal oxides for rheology modification, UV protection, electrical conduction, IR absorption, heat stability and other applications.
Agitan®		High performance defoamers for the paint, polymer and construction chemical industries.
Agitan P		High performance powdered defoamers for the paint and construction chemical industries.
ASP® Series		Hydrous Aluminium Silicate Pigments for Titanium Dioxide extension.
Attagel®		Attapulgite mineral thickeners. They perform well in both water and organic media. They are unaffected by processing temperature, pH, soluble and insoluble salts, enzyme attack and ionic character.
Attasurf		Organic system surfactant for use with Attagel 50.
Aurora		Speciality phosphorescent and fluorescent compounds.
Beaver Luminescers		Security pigments. High quality, lightfast and chemically resistant.
Ceramic Microspheres		Ceramic microspheres. For abrasion resistance and gloss control.
Chromazone®		Reversible thermochromic pigments. Available in pigment slurry, masterbatch and free flow powder form.
Decosoft®		PU Beads for soft-feel and textured coatings.
Decosilk Art®		PMMA Beads for texture and optical applications.
Dee Fo®		High performance defoamers for the graphic arts industries.
Donacarbo®		Carbon Fibers used in conductive and anti-static coatings.
Ecrothan		Solvent free polyurethane emulsions for high performance coatings.
Ecrylic		Solvent free acrylic emulsions for high performance coatings.
Edaplan®		Leveling agents and dispersants for lacquers, varnishes, powder and aqueous coatings.
Emcor 66®		Ultrashort attapulgite whiskers to improve brake performance at high temperatures.
F200®		Activated Alumina Beads for Liquid and Gas Drying.
Foamban®		High performance defoamers for the wood pre-treatment market.
Geocrystal®		Glitter cut from transparent iridescent polyester film.
Geodiamond®		Titanium dioxide coated glass flakes that offer exceptional brilliance and transparency, with extremely high reflection.
Geometal®		Aluminium glitter. Suitable for use where high temperature stability is needed.
Geoppearl®		Pearlescent pigments.
Geoshine®		Polyester glitters. Cosmetic grades are also available.

LAWRENCE INDUSTRIES

PO BOX 3000, Tamworth, Staffordshire B79 7XJ T 01827 31 41 51 F 01827 31 41 52 sales@l-i.co.uk www.l-i.co.uk

Geospectra®		Glitter cut from polyester film that has been embossed and metallised.
Glass Bubbles		Additive for density reduction, shrinkage reduction, high filler loading, improved machinability and thermal radiation reflection.
Interfibe™		Cellulose fibres for reinforcement and thickening additive applications.
IsoCure®		Polyisocyanate curing agents for use with IsoPols. HDI, MDI, IPDI available.
IsoPol®		Polyester and polyether polyols for polyurethane cast resins, adhesives, coatings etc.
LUBA-print®		Solvent & water based wax dispersions, for inks, industrial, coil, can and wood coatings.
Metallic Pigments		Aluminium and bronze and for inks, paints and plastics. Both powders and pastes are available.
Metamax®		High-Reactivity Metakaolin Concrete Additive.
Metolat®		Wetting agents for colour paints, tinting pastes, adhesives, lacquers and varnishes.
Metolat P®		Powdered wetting agents for powder paints and the construction industry.
Microsorb®		Attapulgit based Filtration Products
Necowel®		Water based alkyd emulsions for low VOC general and Industrial paints.
Ottopol		Water based acrylic emulsions and solutions. Both anionic and cationic are available.
Paracelsus®		Bismuth oxychloride pearlescent pigments and dispersions.
Redox		Tin chemicals for chromate reduction.
Satintone®		Calcined Aluminium Silicate Pigments. High oil absorption extenders which provide opacity in many applications.
Silsan®		Silicone resins, additives and treatments for water repellence and stain resistance.
Sipernat®		Precipitated silica.
Stainban®		Tannin and Rosin stain inhibitors.
Suzorite		Canadian Phlogopite Mica, gold in colour, platy extender.
Tafigel®		Polyurethane thickeners for rheology modification of numerous waterbased compounds.
TIB Kat		Tin, Zinc & Bismuth based catalysts for coatings, adhesives, sealants & polymer processing.
Titanium Dioxide		A wide range of pigmentary titanium dioxides for coatings, printing inks, plastics and paper.
Thermostar®		Thermochromic offset, screen and flexographic inks.
Thioplast EPS® Resins		Epoxidised Polysulphide Resin for enhancing physical and chemical properties in epoxy systems.
Translink®		Silane Treated Calcined Aluminium Silicate Pigments.
Trockenperlen® (Sorbead™)		Desiccant beads.
Tytan™		Organo-Titanates for Inks, deco paints, industrial coatings, sealants and catalysts market.
Ultraflon®		Surfactant free PTFE wax dispersions for slip and gloss control.
Ultrex®		Ultra-high brightness TiO ₂ extender pigments.
UV Titan®		Ultra-fine transparent titanium dioxide for UV protection and metallic 'Flip Flop' effects.
Viscocrete®		High range water reducing powdered superplasticizer based on polycarboxylate technology.
Wayncor®		Corrosion inhibitors.
Waynflash®		Flash rust inhibitor. Nitrite free.
Zeoflair®		Additive for the removal of undesirable odours and flavours.
Zeeospheres®		Ceramic microspheres. For abrasion resistance and gloss control.
Zinplex®		Cross linking agent for carboxylated emulsion polymers.

Principal List

Principal	Product Ranges
3M	Ceramic Microspheres Glass Bubbles Protective Materials
Akzo Nobel	Thioplast EPS
ASK	Donacarbo Necowel
AVL Metal Powders	Aluminium Pigment Gold Bronze Pigment
BASF	ASP Attagel Emcor 66 F200 Metamax Microsorb Pharmasorb Satintone Translink Trockenperlen (Sorbead) Ultrax
Borica	Tytan
CHT	Hansa
Chemiewerk Bad Köstritz	Kostrolith (Molecular Sieves)
Dr Paul Lohmann	Inorganic and Organic Minerals
Ecronova Polymer	Ecrothan Ecrylic
Evonik	AdNano Aerodisp Aerosil Aeroxide Sident Sipernat
Gellner	Ottopol
Geotech	Geocrystal Geodiamond Geometal Geoparl Geoparl Crystal Geoshine Geosoft Geospectra Metalloy Midnight Black Paracelsus Sunrise Mica
Graf	Silsan
Interfibe Corp	Interfibe
Iso Elektra	Epoxy Accelerators Type BIR IsoCure IsoPol

Principal	Product Ranges
Laurel Products	Ultraflon
LP Bader	Luba-print Luba-rit
Melspring	Ferromel
Microchem	Decosilk Art Decosoft
Mt Pulaski	Maizorb / Corn Cob Toxi-Dry
Münzing Chemie	Agitan DeeFo Edaplan Metolat Ombrelub Tafigel
Sachtleben	Hombitan Hombitec
Security Pigments	Security Pigments Speciality Colours
SRS Meeder	SR-Dur
TIB Chemicals	Redox TIB Kat
TMC	Chromazone Chromax
Town End	Durablend Duracol Duragran Duralake Duranat Duroma
Wall Chemie	Merpoxen Wallisol Walliphos Walloxen
Wayne Pigments	Corrostain Corrosperse Hybricor Stainban Wayncor Waynflash
Zemex	Muscovite Mica Suzorite Mica
Zeochem	Zeoflair
Zeospheres	Zeospheres
