

## Introduction

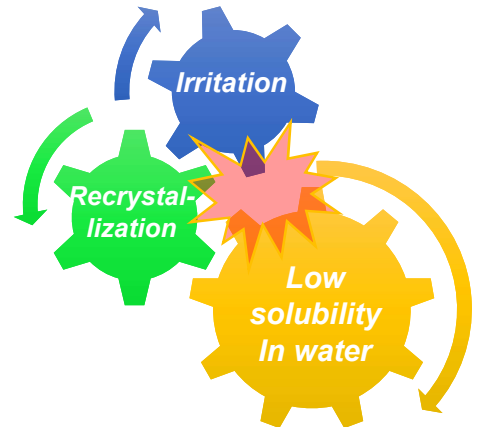

- INCI Name : Salicylic acid
- CAS No. : 69-72-7
- EINECS No.: 200-712-3

## Efficacy

## Challenges

## Outstanding Merit

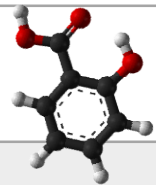

<b>High Loading</b>	Contains ~49% of active
<b>High Solubility</b>	Water soluble (up to 10%) without alcohols
<b>No Skin Irritation</b>	Using skin-friendly polymer
<b>No Recrystallization</b>	Stable at 4°C for 4 weeks (10% solution)
<b>High Efficacy</b>	Synergy effect with niacinamide and caffeine

## Application

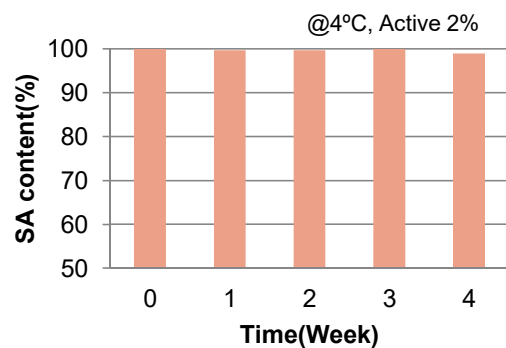

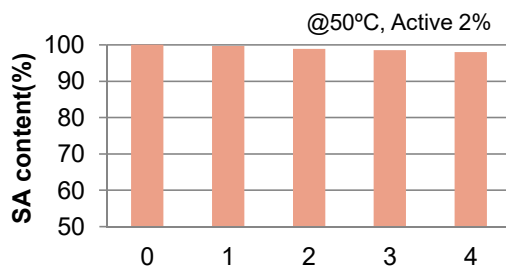

<b>Function</b>	Anti-acne, Anti-inflammation, Exfoliation, Sebum control
<b>Type</b>	Transparent skin toner, Serum, Essence, Lotion, Cream, Hair care products

## Specification

<b>Appearance</b>	Fine powder
<b>Color</b>	White ~ Slightly yellow
<b>Odor</b>	Odorless
<b>Active ingredient content</b>	~49%
<b>Solubility</b>	Soluble in water (without alcohols)
<b>Storage condition</b>	Room temperature Avoid direct sunlight

## Stability

## Formulation Guide

<b>pH in finished products</b>	4 ~ 6
<b>Recommended dosage*</b>	4.1% of SalACD302
<b>Recommended formulation</b>	Serum, Emulsion

\* Depending on the regulation of the country
